

User Acceptance Testing (UAT) Template

Date	17 Jul 2025
Team ID	LTVIP2025TMID54894
Project Name	DocSpot: Seamless Appointment Booking for Health
Maximum Marks	4 Marks

Project Overview:

Project Name: DocSpot: Seamless Appointment Booking for Health

Project Description: DocSpot is a smart appointment booking system that connects patients with doctors through a seamless web-based interface. It provides user authentication, doctor listings, appointment scheduling, admin approvals, and notifications.

Project Version: 1.0

Testing Period: 12-06-2025 to 17-06-2025

Testing Scope:

Features to be Tested

- User login/registration
- Doctor registration and admin approval
- Doctor profile view and image upload
- Appointment booking, cancellation/rescheduling
- Notification system
- Admin dashboard
- Search and filter doctors

User Stories to be Verified

- As a patient, I can book appointments with available doctors
- As a doctor, I can update my profile and manage appointments
- As an admin, I can manage doctor registrations and system data

Testing Environment:

- **URL/Location:** <http://localhost:3000>
- **Credentials (if required):**
 - **Admin:** admin@docspot.com / admin123
 - **Doctor:** doctor@docspot.com / doc123
 - **User:** user@docspot.com / user123

Test Cases:

Test Case ID	Test Scenario	Test Steps	Expected Result	Actual Result	Pass/Fail
TC-001	User Login	1. Navigate to login page 2. Enter valid credentials 3. Click "Login"	User successfully logs in and is redirected to dashboard	User redirected to /user/home after login	Pass
TC-002	Doctor Registration	1. Go to register page 2. Enter all required doctor details 3. Submit	Registration submitted" message shown	Alert message "Doctor registered successfully" displayed	Pass
TC-003	Admin Approves Doctor	1. Login as admin 2. Go to "Manage Doctors" 3. Approve doctor	Doctor status No changes	Doctor row shows status as "Approved" after clicking "Approve"	Fail

Bug Tracking:

\

Bug ID	Bug Description	Steps to reproduce	Severity	Status	Additional feedback
BG-001	Doctor profile image not uploading	1. Login as doctor 2. Navigate to settings 3. Upload image 4. Click Save	Medium	In Progress	Check multer config and ensure upload path exists

BG-002	Notifications not displaying on user home	1. Book appointment 2. Login as user	Low	Open	Possibly backend route /user/notifications/:id is broken
BG-003	Appointment cancellation not updating UI	1. Cancel appointment 2. Page does not reflect immediately	Medium	Open	Use state update or refetch after cancellation
